

# Different types of shots

Medium Close Up

Mid-zoom. Shows the head of shoulders of the subject.

Close Up

Shows the face or object on its own in the frame.

Extreme Close Up

Zoomed right in on details on the subject or person.

2 Shot

Shows 2 people within the frame. Good for interviews.

Point of view

Shown as though it is the view from someones eyes.

Weather shot

The weather or the sky are the focus of the shot.

Cut in

A shot of something that is not the main action or subject.

Over the shoulder

Shot from over the shoulder, showing some of the back of the person.

Tilted horizon

Tilt the camera to take the shot at a slight angle.

Long shot

Subject is a long way away.
